

## Quick-start Guide

### Plan Control Bar

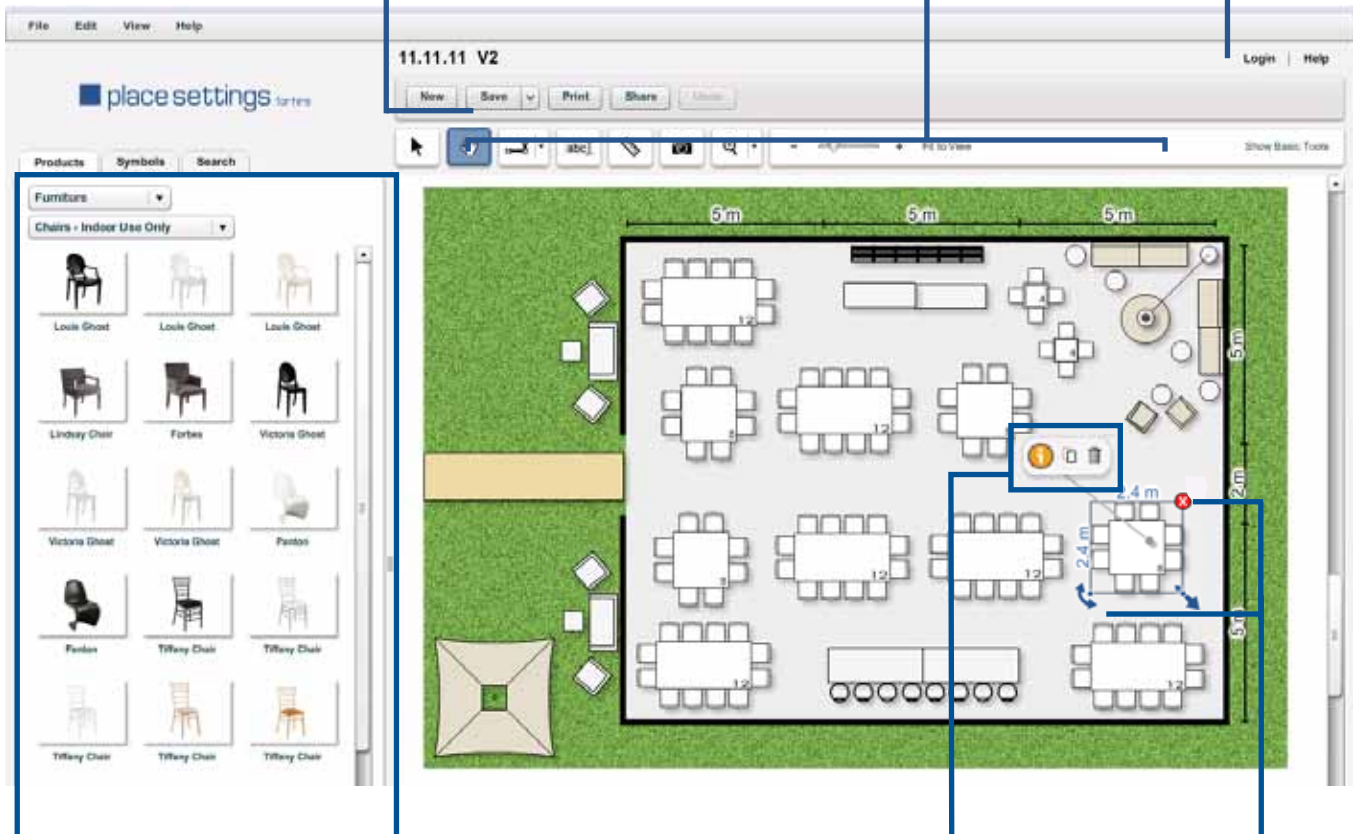

Access common commands

### Tools

Use these to select icons, zoom, measure, add walls & surfaces or insert photos.

### Login

Log in to save, print or share a plan

### Product Tab

The products tab mirrors the Place Settings website. You can navigate our entire product range directly in Floor Planner. Drag and drop any product to your floorplan.

### Symbols Tab

The symbols tab contains useful symbols for your floorplan. Table and chair clusters, architectural items, and scale lines are all found under the symbols tab.

### Rotate or Delete

Click any item to use rotate and delete commands

### Info Palette

Click any item to access the info palette where you can clone or delete. Click the 'i' button to expand the palette for measurements and rotation

## About PSFloorPlanner

PSFloorPlanner lets you create your own floor plans using preloaded templates as a starting point, or from scratch with your own room dimensions. By creating an account you can save, print or share your plans. If you want to submit your floor plan to a PlaceSettings staff member, click on the share button in the Plan Control Bar and choose 'Send to a PlaceSettings representative'.
